*Voters Injured At Work is the premier, independent advocacy organization for injured workers and their families throughout California. For a decade we have assisted thousands of workers in navigating the workers compensation system, including injury classification, training, and full and timely access to legal, mental health, chiropractic, rehabilitation, and all healthcare services. We lead the fight for justice for injured workers in the legislature and to realize the state constitutional promise to "cure and relieve" workers of injury. **Because we raise our voice to influence policy and elections, contributions to VIAW are not tax-deductible.***
